Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor suggest a hard disk drive having a base with an air damping ramp adjacent a disk, a moving region in which a slider and slider driving unit move and having a bottom at a level different than the air damping ramp, and a channel formed to be recessed at the bottom of the moving region and extending along a moving path of the slider. Applicant's prior art figures 2 and 5A accurately depict the closest prior art and the addition of the channel formed to be recessed at the bottom of the moving region and extending along a moving path of the slider represents a non-obvious difference between the claimed invention and the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
